

Deepfake Detection Report

Date: 2026-03-07 13:40:45.136196

Prediction Result: Fake

Confidence Score: 100.00%

Analysis Summary:

This report was generated using a ResNet18 deep learning model trained on a hybrid dataset of deepfake images and video frames.

The system analyzes facial artifacts, blending inconsistencies, and texture anomalies to determine whether the media has been manipulated.
